SUMMARY

Third-year Software Engineering student at Yaşar University with full-stack experience in Node.js, Express.js, React and SQL/NoSQL databases. Built a corporate personnel management system during a software engineering internship at the General Directorate of Highways, and AI-integrated web applications using the OpenAI and Anthropic Claude APIs. Seeking a software engineering internship in Turkey.

EDUCATION

Yaşar University | B.Sc. in Software Engineering | Izmir, Turkey | 2022 – Jul 2027 (expected)

Samsun Science and Art Center (BİLSEM) | Program for gifted and talented students, Science & Technology track | 2010 – 2021

EXPERIENCE

Software Engineering Intern | General Directorate of Highways (KGM), 7th Regional Directorate, IT Chief Engineering | Samsun, Turkey | Jul 2026 – Aug 2026

- Developed a corporate personnel management system with Node.js, Express.js, SQLite and vanilla JavaScript, covering personnel records, organizational unit hierarchy, assignment history and reporting.
- Implemented role-based access control, OTP login verification, audit logging, national ID masking, secure export and SQL injection protection.
- Built Excel/CSV data import and Excel/CSV/PDF report exports with data quality checks and data reconciliation.
- Set up an automated testing infrastructure for the system.

PROJECTS

AI Career API: AI-Assisted Career Matching Platform (Team of 2, Full-Stack Developer) | React, Vite, Node.js, Express.js, MongoDB, OpenAI API

github.com/sudenazcakir/ai-career-api | ai-career-api-eight.vercel.app

- Co-developed a full-stack web application with JWT authentication, CV management and versioning, job filtering and weighted job-match scoring.
- Integrated the OpenAI API for ATS-focused CV optimization, certificate data extraction and career fit analysis, with rule-based fallbacks when the API is unavailable.
- Implemented PDF/TXT CV parsing, skill gap analysis and an application tracker; documented the REST API with Swagger.
- Wrote unit, integration and end-to-end tests with Vitest, Node.js test runner and Playwright; deployed on Vercel.

Senior Project Management Platform (Team Project, Full-Stack Developer) | React, Node.js, Express.js, Sequelize, PostgreSQL (Supabase), Anthropic Claude API

github.com/SE3318-Spring-2025-2026/senior-app-1

- Developed a platform for managing university senior projects: group formation, advisor matching, deliverable submission and sprint-based grading for students, advisors and coordinators.
- Integrated GitHub OAuth and the GitHub and Jira APIs to sync sprint issues daily and verify pull requests.
- Worked on AI features that use the Anthropic Claude API to verify pull request code reviews and compare Jira issues against PR diffs.
- Followed a Git branching, pull request and code review workflow in a 600+ commit team repository.

Rick and Morty Wiki | React, Tailwind CSS, Vite | github.com/sudenazcakir/rick-and-morty-wiki | midterm-sudenazcakir.vercel.app

- Built and deployed a responsive character wiki web application on Vercel.

TeaMaker Application | Java, MVC, MySQL

- Developed a desktop application with MVC architecture and a graphical user interface.
- Built a logging system that stores application actions in a MySQL database.

Online Book Search & Favorites System | Java, MySQL, NetBeans

- Built a system for searching books and authors, managing favorites and saving reviews, page counts and personal notes.

İzmirinkart Website Software Quality Testing | Black-Box Testing, Selenium

- Performed black-box testing on a live web application and automated user scenarios with Selenium.
- Reported functional defects and improvement recommendations.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, SQL, C, C++, HTML, CSS
- **Frameworks & Libraries:** Node.js, Express.js, React, Vite, Tailwind CSS, Sequelize
- **Databases:** MySQL, PostgreSQL, SQLite, MongoDB
- **Testing:** Vitest, Playwright, Selenium, Node.js test runner, black-box testing
- **Tools & Practices:** Git, GitHub, Postman, Jira, REST APIs, Swagger, JWT authentication, Vercel, Agile/Scrum
- **AI Integration:** OpenAI API, Anthropic Claude API

ACTIVITIES

- YGA "Birbirini Geliştiren Kadınlar" (Women Empowering Women) Program | Selected through interviews
- Özyeğin University Technology Camp 2024 | Participant

LANGUAGES

Turkish (Native), English (Fluent), German (Pre-Intermediate)
